Dear Kevin O'Donnell and Matt Zeno

Thank you so much for your support of the Abilities Center's "fun" and "friend" raising event hosted by Jack and Louise Heritage on September 19, 2008. Through this event the Center raised just over \$4,000!!! Your contribution of the canopies for the event made a huge difference in the cost of even and the amount raised therefore that will go directly to our capital expansion project.

As a non-profit organization with a mission of putting people with disabilities to work, we have certainly felt the impact of these difficult economic times. The support of our larger community of friends and neighbors will enable us to move forward in spite of these challenges, and create bigger and better opportunities for those we serve.

On behalf of our Board, staff, volunteers, and particularly the people served by the Center, I extend my heartfelt thanks for your support of our event. Please stop by anytime and see the work of the Center in person. I would be happy to show you around and share more information about what we do. As we approach the end of year, a traditional time of giving, I am reminded of the generosity of people like you and again say thanks.

**Sincerely,
Susan Perron
President and CEO**
