

## NEW from Purina!

The all-new Accuration Hi-Fat block is the latest in Purina's cow care supplement line! This 25% protein product offers a unique design and content geared to help producers better manage your herd nutritional needs without further stretching every ranches' most precious resources - time and labor. The 10% fat content will provide additional energy and balance the nutrient deficient forage many producers in North Dakota, and the surrounding region, have harvested for feed this winter.

Prices start at:

- 200 lb. tub - \$81.50
- 200 lb. block - \$77.00
- 500 lb. block - \$182.50
