

PET FOOD OF THE MONTH: NUTRISOURCE GRAIN FREE PET FOOD

All Nutri Source pet foods offer the following bioavailable solutions:

- **SKIN AND COAT** – unparalleled absorption of trace minerals greater than 85% through use of organically produced BIOPLEX, which guarantees a richer and more vibrant coat within 9-12 weeks.
- **ODOR CONTROL** – uses a prebiotic called Bio-Mos™ which destroys the pathogenic gut bacteria that causes gassy odors, loose stools, vomiting, and other sensitive stomach issues.
- **IMMUNITY** – via Good 4 Life, a combination of powerful natural supplements unique to NS gives your animal an abundance of health advantages.
- **BRAIN FOOD** – uses a 98% bioavailable organic Selenium called Sel-Plex. This powerful anti-oxidant and anti-inflammatory agent reduces plaque in brain tissue.
- **LOW GLYCEMIC** – low glycemic formulas promote proper blood sugar levels in order to avoid risks of diabetes and obesity.
- **NUTRIENT DENSE** – meals are cooked to retain more nutrition with minimal processing.

We're thrilled to offer you some new grain free Nutri Source dog food varieties at Soldan's. Nutri Source pet foods are made to ensure maximum bioavailability with all the nutrition necessary for a happy, healthy life for your pet. What is Bioavailability? The percentage of nutrients – the good stuff in food – 'available' for your pet's digestive system to convert into a robust body, strong bones, and a shiny coat.

FREQUENT BUYER PROGRAM AVAILABLE (BUY 12, GET 1 FREE)

TREAT OF THE MONTH: NUTRISOURCE GRAIN FREE BITES CHICKEN, SALMON, & RABBIT FLAVORS

Even an old dog can learn new tricks. These semi-moist, drool worthy treats make an excellent reward for a job well done. Formulated with Carni-King, a concentrated source of bioavailable L-Carnitine that aids in building a lean body and helping your pup burn fat. Now you can treat your fur baby without the guilt.

Sushi, in her K&H Window Perch her mom got her at Soldan's in Midland

SUSHI
pet of the month

BIO

Sushi is a 6 month old kitten who was rescued from the outside world. She needed to gain weight and learn how to trust people. With patience, she quickly became attached to her new human owner, Zoe. She can usually be found zooming through the house playing with her toys.

LIKES

Sushis favorite thing is to snuggle and she makes a great sleeping buddy. She enjoys her window seat where she can watch the birds outside. Sushi loves playing with dog and cats, but not as much as she loves French fries. If she can smell them, she will find them!

PET PEEVES

Going to sleep when she isn't ready. She would purr-fur to be up all night and sleep all day – darn those humans and their weird sleeping schedules!

WHAT WE CAN DO TO HELP WITH FELINE UTIs

There are several symptoms to watch for that could indicate a urinary tract infection in your feline friend. Common symptoms include:

- Frequent urination, even without passing much liquid
- Avoiding the litterbox or urinating away from the box
- Strong odor to the urine
- Bloody or cloudy urine
- Hard, swollen abdomen indicating urine buildup
- Frequent licking of the genitals
- Excessive drinking

With proper diagnosis, your veterinarian can determine the cause of your cat's infection and recommend the best possible treatment to relieve the condition. Here are a few things that you can do to help treat your cat's UTI.

Creating a Low-Stress Environment: Allow your cat access to see out windows, crack a window for natural air flow, provide more stimulating toys and take time to bond with your cat to lower their stress and improve their health.

Dietary Changes: A principally dry, lackluster diet can contribute to your cat's urinary tract infections. Instead, change to wet canned food and entice your cat with tastier tidbits. The healthier their diet, the more they will be able to fight infections and recover quickly.

Increase Water Intake: While cats will not naturally slake their thirst at the water bowl, keeping more water available can help improve their water intake and alleviate UTIs.

SOLDAN'S TEAM MEMBER PICK

NAME: Nikki Soldan

POSITION: Business Development Manager

#TEAMSOLDANSSINCE: November 2014

FAVORITE PRODUCT: One Fur All

I have one Cattle Dog at home named Smudge. Rolling in mud puddles is his specialty, and he smells like a swamp more often than not. One Fur All odor neutralizing products are a must have for me. Not only are all OFA products guaranteed to eliminate odors - they are long lasting, and the candles are made with 100% natural soy wax.

The car fresheners are infused with real essential oils. They help me keep my sanity on my car rides home from the Lincoln Brick Park, where Smudge and I walk on a regular basis.

There are candles out there that aren't safe for dogs, cats, or people as they're commonly made with paraffin, a petroleum by-product that produces a lot of black smoke. OFA's little mini candles are 100% paw and people approved! I have one in every room. Even when you are not burning the candle, the good smells emanate from the tiny candle. If you have one Smudge like me, or an entire army at home – I recommend you start freshening your home with One Fur All.

We carry six different flavors for your smelling pleasures: Fresh Citrus, Lavender Green Tea, Mandarin Sage, Pina Colada, Vanilla Crème Brulee, and my favorite – Evergreen Forest!

Thank you for making my home smell paw-some One Fur All!

Love,
Nikki & Smudge Soldan!
