### ATTENTION

**PLEASE NOTE:** Chicks are expected to arrive on posted delivery dates, but if they do not hatch they will not be available on the published date. Hatcheries vaccinate chicks for Merricks Disease prior to shipping. They also try to send only female chicks; however, neither the hatchery nor *Bothell Feed Center* guarantees each chick to be female. In addition, *Bothell Feed Center* does not guarantee survival of the chicks once they leave the store.

**ALL SALES FINAL**
