

Classic-Craft® Canvas Premium Entryways

THERMA-TRU® DOORS

The premium paintable choice — right down to the edge.

Premium — right down to the edge.

A solid hardwood square edge delivers a genuine wood appearance.

Standard fiberglass bullnose edge.

The bullnose profile, typical of other fiberglass doors, detracts from the authentic wood look.

1 Enhanced Weather Resistance means no more worries about rotting, warping or twisting. Both the top and bottom of the door are protected by **composite rails** for a longer-lasting entryway.

2 Solid Security with a 4- $\frac{1}{2}$ " wide piece of **laminated strand lumber (LSL) wood** that runs from the top to the bottom of the locking side of the door. This added mass and rigidity gives the door weight and a natural wood feel.

3 Excellent Durability built to stand up to the elements and years of wear, with **thicker fiberglass skins** than standard fiberglass doors.

4 Higher R-Values contribute to an energy-efficient home. A **polyurethane foam core** provides up to four times the insulating R-Value of wood.*

5 Edge-to-Edge Moisture Protection thanks to **hardwood and composite edges** to help prevent moisture penetration.

Compare for yourself.

Details that define a custom door.

Crisp, handcrafted elegance creates embossments that are deeper than standard fiberglass doors.

Architecturally correct for true classic beauty.

Doors designed to be architecturally correct, with proportions modeled after classic architectural principles, to create a more premium entryway.

Contributes to an energy-efficient home and is backed by a lifetime limited warranty.

*Comparison of fiberglass to wood doors (both without glass).

**Compared to other standard fiberglass doors.

Door vs. Door

THERMA-TRU®
DOORS

Classic-Craft® Canvas Collection® Premium Entryways

- Sleek, modern entryway with a smooth paintable surface that rivals custom wood.
- Crisp, handcrafted elegance with deeper panel embossments.
- Solid hardwood square edges deliver a genuine wood appearance.
- 2-1/2" total trimmable height for easier precision fitting in shorter rough openings without re-railing.
- 4-1/8" full-length engineered lumber lock stile runs the entire length of the door providing added mass and rigidity.
- Thicker 0.095" fiberglass skins.*
- 20% heavier construction.
- Architecturally correct design – up to 25% wider panels and more than 10% wider glass.
- Appeals to the homeowner seeking a high-end, smooth paintable door.
- A *Consumers Digest* Best Buy.
- Differentiated fiberglass product that commands higher margins.

Smooth-Star® Door Systems

- Smooth, ready-to-paint surface with crisp, clean contours.
- High-definition panel embossments.
- Standard bullnose edge.
- 1/2" total trimmable height.
- 1-1/4" lock and hinge stile.
- 12-1/2" lock block.
- 0.065" thick fiberglass skins.*

See and feel the difference.

Classic-Craft Canvas & Smooth-Star Tru-Advantages

- Won't rust, dent or scratch like heavy-gauge steel.
- Won't rot or warp like custom wood.
- Solid polyurethane foam core provides up to four times the insulating R-Value of wood.**
- Top and bottom composite rails help block moisture and won't rot or warp.
- Kerfed door bottom mates with bottom sweep to help provide a tight seal.
- Full line of matching doorlites, sidelites and transoms feature decorative glass enclosed between two panes of tempered glass for energy efficiency and easy cleaning.
