AZEK TRIM | #1 BRAND OF TRIM

Offering the unequalled combination of Uniformity, Durability, Workability and Beauty, AZEK Trim looks and feels like real wood, yet requires little maintenance to provide lasting curb appeal.

AZEK Trim products are available in many dimensions and sizes, most in both Traditional (smooth) and Frontier (rustic texture). With a building code listing (ESR-1074), AZEK Trim products can be worked similar to wood - even mitered, routed and turned on a lathe. For custom applications, AZEK Trim products can be laminated and heat formed to create curves. AZEK To Mill offers a true 1 1/4" profile that is perfect for fabrication and OEMs.

AZEK MOULDING | THE LOOK AND FEEL OF AZEK TRIM

High performing wood replacement mouldings available in a variety of profiles. A perfect match to AZEK Trim, AZEK Mouldings are known for longevity and durability. They won't split or rot and can be installed using traditional tools and fasteners.

AZEK Mouldings can be laminated and heat formed to create curved moulding details.

AZEK PAVERS | PAVERS, REINVENTED

Combining recycled materials with cutting-edge technology, AZEK Pavers are the most advanced segmented paving system in the world.

Redwood

Boardwalk

Olive

Village

Waterwheel

Standard Pavers/Grid

Permeable Pavers/Grid

Resurfacing Pavers/Grid

Soldier Wedge Paver

Soldier Full Paver

Half Paver

Engineered to resist cracking and staining, AZEK Pavers provide long lasting good looks and are guaranteed for life not to crack (residential applications only).

AZEK Pavers use a patented grid system that dramatically reduces installation time and takes the frustration and difficulty out of manually setting and aligning heavy concrete pavers.

Made from up to 95% recycled materials, AZEK Pavers help projects earn LEED Certification easier than any other pavement. AZEK Pavers out perform other pavers in LEED contribution, such as concrete pavers with fly ash, by more than 10 times.
