The Builder's Choice

SPRING
CONTRACTOR'S DAY
May 1st, 2018

THE MOST CHALLENGING YET . . . WOODWORKING COMPETITION OF 2018!

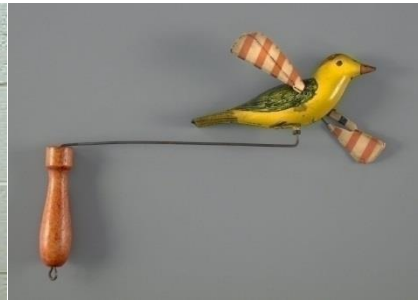

The Whimmy Diddle, Whirly Gig and Everything In Between Competition

(See Rules Below).

The objective is to build the most unique mechanical doohickey possible. It can be as simple as a toy or as complicated as a clock. It just must have moving parts and be made mostly from wood.

As usual, we will have vendors on hand to display the latest in tools and building materials, some offering exclusive deals.

We will be providing free breakfast biscuits in the morning and hot dogs and drinks for lunch.

Contest Rules:

- The entry can be something made recently or as old as the hills.
- It can be wind powered, battery powered, and/or wind-up. Any way to get it moving.
- The entry must have two or more moving parts. The more the merrier.
- Your creation must be made primarily of wood.
